Bhutan Airlines reserves the right to refuse travel of an expectant mother over 28 weeks pregnant who does not present a completed "fit to fly" form from their midwife/doctor during the time of ticketing.

For uncomplicated pregnancies, travel is not permitted beyond the end of the 35 weeks of pregnancy. Expectant mothers travelling beyond 34 weeks of pregnancies must have a qualified escort with them (documents stating the qualification of the escort must be produced during the time of ticketing)

After 32 weeks, the carriage is at the expectant mothers own risk and Bhutan airlines renounce any responsibility for health of the mother and the child. For uncomplicated twins, triplet's etc. pregnancy, travel is not permitted beyond the end of the 32nd week of pregnancy.
